

Dear FCC:

I am very disturbed that you plan to drop the cross-ownership reg for media. This is blantent pandering to large mega-media Corps. I do not see how this action could be helpful to the public. It will decrease the level of news coverage, the diversity of the coverage and the quality of news. I for one do not want the far right Fox News to own the major of outlets in my city, Fox is a good example of why the cross-ownership probition must stay. Fox ix a bias, right wing media outlet, which as long as there are other outlets is fine but if Fox becomes the only outlet in an area, the public will not benefit from your action.

My question to you is simple! Who are you watching out for the public or Fox News. It should be the public.

Your timing for this is in very bad taste. It has the appearnce that the FCC is attempting to make major changes during a time when the public is consumed with Sept 11. Is this a back handed way to deny the public the benfit of a fair debate regarding this issue. I hope not.

Please do not repeal the cross-ownership probition.
